

May 20, 2008

Dear Parent or Guardian:

We hope that your family enjoys using your child's computer this summer, and that when your child returns in the fall, the computer will be in good working order. If you experience any problems with your laptop requiring warranty service or support, or if you need to file an insurance claim during the summer months, please call the Information Services Office at 714-447-7470 for help.

In the late summer or early fall, all computers in the Laptops for Learning program will have their hard drives erased, and all software will be replaced or updated. The software will include all of the latest updates to the Macintosh OS X operating system, as well as additional software that the District has licensed for use in the program. At the same time, any files or documents that your child has saved, including purchased music, photos, or other documents, will be erased. **Please make sure such files have been saved either to the file server at school, or to an external storage device of some kind, prior to this process.**

Please have a safe and productive summer vacation, and we look forward to working with you in the fall!

Sincerely,

Tony Anderson  
Chief Information Officer

Ted Lai  
Coordinator, Educational Technology  
and Media Services

The Fullerton School District is committed to the California constitutional mandate of making educational activities available to all students without regard to their family's ability or willingness to pay fees or request special waivers.
